

Message from Commissioner for Census and Statistics

It gives me great pleasure to congratulate the Faculty of Science of the Hong Kong Baptist University on their 50th anniversary.

As highlighted by the theme “COME and SHARE – 50 Years of Wisdom and Happy Memories”, the 50th anniversary has featured a series of celebration activities for teachers, alumni and friends to share the achievements and contributions of the faculty and its alumni. I am confident that the faculty and its alumni will continue to play a significant role in the advancement of scientific knowledge not only for Hong Kong but also for the world.

On this very special occasion, I would like to wish the 50th anniversary a fruitful and memorable event, and that many more of it will be yet to come.

FUNG Hing-wang, JP
Commissioner for Census and Statistics
